WORK EXPERIENCE

Associate Product Manager **08/2024 – Present**

Wells Fargo

- Gathered business requirements and analyzed user needs with cross-functional stakeholders to deliver scalable Salesforce solutions supporting 20,000+ enterprise users. Defined product requirements, maintained data mapping documentation, and collaborated with business and technology teams across multiple Lines of Business. Supported regulatory reporting, data governance, and process improvements to enhance operational efficiency and compliance.
- Managed Salesforce product operations by handling task related to user management, change requests, data loading, data cleansing, account and contact merges, and user queries; developed reports and dashboards based on business requirements, maintained data quality and integrity, and supported multiple Lines of Business (IF, VF, EF, ABL, CDF, and CF) through process improvements and ongoing product support.
- Performed data validation, data quality analysis, and root cause analysis to improve product reliability and data accuracy; optimized workflows and processes, reducing manual effort by 40%+, and developed KPI dashboards, product performance reports, and business metrics to support data-driven decision-making and executive reporting.
- Acted as a single point of contact for business support channels, coordinating case resolution and stakeholder communication to improve service delivery and operational efficiency. Created application documentation and feature guidance to improve user understanding, adoption, and effective utilization of key product capabilities.
- Supported product governance and compliance by monitoring data quality, metadata standards, issue resolution, and JIRA workflows. Analysed user behavior, support trends, and stakeholder feedback to identify product enhancement opportunities, reducing support tickets by 30% and improving platform usability and customer experience.
- Supported data retention and migration initiatives by translating regulatory requirements into product improvements, designing data controls to improve data integrity and reduce manual errors, and leading functional testing across class codes and orgs through test case development and UAT validation; collaborated with stakeholders to prioritize enhancements, resolve production issues, ensure governance compliance, minimize business disruption, and drive continuous product improvements aligned with customer and business needs.
- Spearheaded digital adoption initiatives using WalkMe across Salesforce CRM, Microsoft Dynamics 365, Client Insight, and enterprise applications by gathering user feedback, identifying pain points, defining enhancement opportunities, and implementing SmartTips, Surveys, Shuttles, Walkthroughs, and Launchers in UAT; collaborated in Agile product reviews to track enhancements, resolve blockers, and align deliverables with business priorities, improving user adoption, feature utilization, and digital experience..

Data Management Analyst **07/2023 – 07/2024**
Deloitte

- Collaborated with cross-functional business and technology teams to support product initiatives by establishing data governance standards that improved data quality, integrity, and regulatory compliance.
- Analysed data quality issues, identified process gaps, and partnered with stakeholders to implement improvements that enhanced product reliability and operational efficiency.
- Gathered business and data requirements from stakeholders to support product enhancements, optimize workflows, and align solutions with business objectives.
- Facilitated communication between technical and non-technical stakeholders, translating business needs into actionable requirements and providing regular progress updates through reports and documentation.
- Prepared data quality reports and business insights to support decision-making, monitor product performance, and drive continuous process improvements.
- Leveraged Salesforce (Jupiter), Informatica MDM 360, Crunchbase, D&B Hoovers, Capital IQ, SwiftPad, DESC, and TRE Bulk Upload tools to support data management, product operations, and business analysis activities.
- Contributed to continuous improvement initiatives by identifying opportunities to streamline processes, improve user experience, and enhance operational effectiveness across enterprise data management functions.

Research Associate **01/2022 – 05/2023**
Jasper Colin Research

- Well-versed in managing the execution of B2B and consumer market research data collection using various research methodologies such as CATI and CAWI, with domestic as well as international clients.
- Worked on several niche projects including Automotive Collision, Insurance Tech, IT Education, Telecom, FMCG, Email Security Products (SEG, ICES, DMARC, Browser Isolation), Global Manufacturing and Construction Industry, and US brand equity projects.

EDUCATION

MBA/PGDM – Operations **2021**
Manipal Academy of Higher Education (MAHE) | CGPA: 9.44 / 10
